## SEINE IS FALLING; DAMAGE GREAT

PARIS, Feb. 1.—The swollen waters of the Seine have fallen four feet, exposing in many of the city streets the damage done to buildings, sewers and pavements by the torrent during the past week.

The work of caring for the refugees has assumed tremendous proportions, taxing the energies of the army officials in charge. Yesterday an army of a quarter of a million people, from the flooded districts of the city and from the neighboring country, fed from the relief stores, and it is probable that many days will elapse before the bread line grows shorter.

### AVIATOR BADLY INJURED.

CAIRO, Egypt, Feb. 1.—Mortimer Singer, the American aviator, who has been giving exhibitions here, was seriously and perhaps fatally injured today as the result of the falling of his machine. The aviator was making an ascent when his motor failed and a wing support broke, with the result that machine and man fell. Singer struck the ground heavily, and when examined it was seen that both his arms and both his legs had been broken. Internal injuries are also feared.

### MORE MINERS KILLED.

DRAKESBORO, Kentucky, Feb. 1.—Thirty-five miners are dead as a result of a gas explosion today in the Browder mine.

### MINISTER CALHOUN COMES IN MARCH.

WASHINGTON, D. C., Feb. 1.—William J. Calhoun, appointed by President Taft as Minister to China, to succeed Charles R. Crane, whose diplomatic career ended before it had begun, is to leave for the Orient and his post of duty early next month. He is booked to sail from San Francisco on the S. S. Mongolia, sailing from San Francisco on March 8.

### CHEERY MINE IS OPENED.

CHERRY, IN., Feb. 1.—The Cherry mine which took fire after an explosion on November 13, and which had been sealed up with the dead bodies of a hundred and sixty miners entombed, was reopened today, and the work of recovering the bodies for interment has commenced.

### TRUST UP FOR INVESTIGATION.

WASHINGTON, D. C., Feb. 1.—The high cost of living and the excessive prices charged the consumers for meats are to be made the subjects of congressional investigations, if resolutions introduced into the House today are carried.

### SHRINKING SECURITIES CAUSE FAILURE.

NEW YORK, Feb. 1.—Fisk & Robinson, prominent brokers, have gone into bankruptcy, with liabilities of over a million dollars, a receiver being appointed to take charge of the firm's business. Speculation in the stocks and bonds of the Buffalo and Susquehanna Railroad, and the recent shrinkage in the value of those securities, is responsible for the failure.

### NEW SPANISH AMBASSADOR.

MADRID, Spain, Feb. 1.—The transfer of Señor Don de Villalobar, Minister to Lisbon, to be Ambassador to Washington, has been gazetted. He will replace Señor Don Ramon Pina, who has been stationed in Washington for some time and who has been recalled.

## HABEAS CORPUS WRIT

Chief McDuffie is still working hard on the Koester jewelry case and has interviewed a number of Bothe's relatives about the matter. The man who is alleged by "Monkey"—a convict—to have found the \$3000 worth of jewels, is still held at the police station. It is said that his attorney, E. C. Peters, will apply for a writ of habeas corpus to have Bothe released.

The decoration and entertainment committee is under the chairmanship of C. C. von Hamm. Under him will serve Charles Crane, G. F. Bush, Emil A. Berndt, Ed Towse. All the details in connection with the ball for this evening have now been completed, and no stone has been left unturned to make this one of the best balls ever held in Honolulu.

Arrangements for the Merchants' Association ball to the petty officers and men of the Pacific fleet, at the Moana and Seaside hotels, on Saturday night, have also been completed. Admiral Schree has kindly consented to assist the decoration committee and has promised to send down a squad of men to help decorate the ballrooms of these hotels. Bunting will be sent from the various vessels under his command, and with the vari-colored electric lights which are now being installed, the decorative effects will be wonderful. A number of society ladies have kindly consented to act as patronesses and escort all the belles of Honolulu to these hotels on Saturday evening, so that the sailors may have the time of their lives.

Special board-walks are being laid down to connect the Moana and Seaside hotels. No invitations will be issued for this Saturday night ball.

ONLY rich people can afford to use poor soap.

For this reason: Poor soap contains an excess of alkali which weakens the fabric and shortens the life of everything it touches.

Rich people can stand that sort of thing.

People who are not rich should use Ivory Soap for everything but the coarsest, commonest things that need to be washed.
